SEREN-BIDET

KOHLER VEIL

- A modern, Compact, streamlined one-piece integrated toilet / bidet.
- Sterilized water cleans the bidet wand after each wash & UV light sanitizes it every 24 hrs.
- A sensor automatically opens/closes the seat cover as the user approaches and moves away from the toilet.
- Toilet seat is made with antibacterial material for improved hygiene.
- Inspired by minimalist architecture, the sophisticated design offers ergonomic features and technological improvements that enhance cleanliness and provide seamless convenience.
- A wall-mounted model is also available – perfect for saving space and creating a seamless look.
- Insulated in-wall cistern (fully framed).
- Automatic, touchless or manual Dual flush options (4.5/3L).
- The Kohler Veil requires installation by both a registered Plumber and Electrician. The Kohler Veil must be installed in accordance with AS/NZS 3500.1, which will require the installation of a high hazard backflow prevention device (not supplied), if not already installed on site.
